Specifications - French Door Refrigerator

The Electronic Controls and Display are located on the interior of the left refrigerator door. At the top of the display is the Power On/Off and Default Settings reset button followed by the Celsius/Fahrenheit Temperature Selector. The alarm reset is found in the middle of the display and needs to be selected after the Open Door, High Temperature or Power Failure Alarms are activated. At the bottom of the display are the digital temperature displays for the refrigerator and freezer sections that can be adjusted precisely in one degree increments.

The Cool White LED Transition Lights in both compartments are easy on the eyes and gradually intensify to illuminating brightness after you open the door.

This model has earned an 'A+' Energy Rating which will save you money as well as save the environment.

The unique 'Peace of Mind' 7-Year Sealed System Warranty is a special guarantee that covers the compressor and all parts of the refrigerator's sealed system.

You can have peace of mind knowing that your food is being preserved in ideal conditions in a Gibson refrigerator.

Bottled Water Dispensing System

- Quick Connect Hoses
- Empty Bottle Automatic Shut-Off
- Built-In Check Valve to Prevent Backflow
- Universal Seal Cap
- Compact Size for Easy Mounting
- Positive Displacement Pump
- Lighted Power Switch
- 6m/20 ft. Discharge Hose

ClearFlo

This system can be easily and conveniently installed in a cabinet or under the counter next to the refrigerator.

The revolutionary ClearFlo water dispensing system resolves the concerns about side-by-side refrigerators with ice and water dispensers and top mount refrigerators with ice makers. This compact system is the solution to the problems of water pressure, purity and temperature.

The ClearFlo was designed to pump water from a commercially available 5-gallon water bottle. The system will

deliver the water under pressure to the water inlet of the refrigerator. When the suction wand is inserted into the 5-gallon water bottle, it will activate the float switch on the end of the wand and turn on the pump. This same float switch shuts off the system when the bottle is empty.

The Gibson MRTC18V3MW refrigerator is designed with contoured handles that are easy to grasp and create a distinctive flair to the exterior appearance.

This model has earned an 'A+' Energy Rating which will save you money as well as save the environment. The new Deluxe Climate Controlled Defrost allows the defrost cycle to occur as necessary according to climate and usage conditions, even in the event of frequent power

outages. The result is energy savings for you. Your fruits and vegetables will last longer when stored in the Ultra Humidity-Controlled Crisper Bins.

A POS sticker located on the inside explains the 'Peace of Mind' 7-Year Sealed System Warranty and other feature benefits.

You can have peace of mind knowing that your food is being preserved in ideal conditions in a Gibson refrigerator.

- Frost Free Operation
- Cold Pro Plus Electronic Controls and Display with Safety Lock
- High Temperature Alarm
- Door Ajar Alarm
- Power Failure Alarm
- Fresh Air Filter
- Superior LED Lighting
- 3 Cantilever SpillFree Glass Shelves
- Humidity Controlled Crisper with Glass Cover Shelf and 2 Dividers
- Full-Width Snack Compartment
- Covered Dairy Compartment
- 2 Full-Width and 4 Half-Width Adjustable Door Bins
- Tall Bottle Retainer
- Dynamic Condenser

The new Gibson MRAD19V9KS all refrigerator is designed to make organizing your fresh foods easier. With numerous convenient compartments like the 4 Adjustable Door Bins and 2 Fixed Door Bins, 3 Glass Shelves, Snack Compartment and Dairy Compartment, the MRAD19 has a place for large and small items. It also provides abundant space for large platters of food and a surplus of fruit and vegetables.

The Easy Clean Stainless Steel Door has a protective coating that reduces visible fingerprints and smudges.

This model is designed with Cold Pro Plus Electronic Controls and Display on the interior. You can set the exact temperature on the display as well as activate the Safety Lock. The alarms alert you when the interior temperature rises to an unsafe level, power is lost or the door is left open. The

Fresh Air Filter removes odors from the freezer to keep your foods tasting fresh. The Superior LED Lighting gradually intensifies after you open the door and makes it easier to find your stored foods.

With Frost Free Operation, you are relieved of the burdensome chore of defrosting the freezer. The unique 'Peace of Mind' 7-Year Sealed System Warranty is a special guarantee that covers the compressor and all parts of the refrigerator's sealed system.

Pair this model with its companion upright freezer MUFD19V9KS for 1048 liters of fresh and frozen food storage. For a built-in look, add optional trim kit TRIMKITEZ2 for the pair and TRIMKITEZ1 for the refrigerator only.

You can have peace of mind knowing that your food is being preserved in ideal conditions in a Gibson all refrigerator.

For maximum frozen food storage, invest in a Gibson upright freezer. These models are built in the US according to strict quality standards with numerous safety and convenience features. The Adjustable Organizers make it easier to keep your food organized and visible.

These models are designed with Cold Pro electronic controls and display on the exterior of the door. You can set one of seven temperature levels on the display. The alarms alert you when the interior temperature rises above -5 Celsius or the door is left open.

With Frost Free Operation, you are relieved of the burdensome chore of defrosting the

freezer. The handy Lock with Pop-Out Key keeps the door closed and securely locked whenever you need to control access.

The unique 'Peace of Mind' 7-Year Sealed System Warranty is a special guarantee that covers the compressor and all parts of the freezer's sealed system. These models also earned a Commercial Rating, which means that they are suitable for use in a home or a commercial business.

You can have peace of mind knowing that your food is being preserved in ideal conditions in a Gibson upright freezer.

G12FF-MUFD19V9KS-A

new Gibson 19 cu.ft. upright freezer. This new model is built in the US according to strict quality standards with numerous safety and convenience features. The Easy Clean Stainless Steel Door has a protective coating that reduces visible fingerprints and smudges.

The MUFD19V9KS is designed with Cold Pro Plus Electronic Controls and Display on the interior. You can set the exact temperature on the display as well as activate the Safety Lock and Extreme Freeze functions. Extreme Freeze increases freeze time by 33% when you need to freeze food quickly. The alarms alert you when the interior temperature rises above -5 Celsius, power is lost or the door is left open.

Super Chill Airflow is created with two louvered ports that provide multi-directional airflow for superior and consistent freezing.

The Fresh Air Filter removes odors from the freezer to keep your foods tasting fresh. The Superior LED Lighting gradually intensifies after you open the door and makes it easier to find your stored foods.

With Frost Free Operation, you are relieved of the burdensome chore of defrosting the freezer. The unique 'Peace of Mind' 7-Year Sealed System Warranty is a special guarantee that covers the compressor and all parts of the freezer's sealed system.

Pair this model with its companion all refrigerator MRAD19V9KS for 1048 liters of fresh and frozen food storage. For a built-in look, add optional trim kit TRIMKITEZ2 for the pair and TRIMKITEZ1 for the freezer only.

You can have peace of mind knowing that your food is being preserved in ideal conditions in a Gibson upright freezer.

Note: Appearance of 24,000 BTU evaporator varies slightly

Introducing the new line of Gibson Grand System split air conditioners! The new evaporator has a sleek, smooth contemporary design along with a fashionable remote control. The My Temp function adjusts the room temperature according to where you and the remote control are located in the room and not evaporator. The Turbo Comfort function provides intense cooling to quickly achieve your desired temperature.

A set of three filters are combined to help improve the air quality in your home. The Bio/HEPA Filter removes 95% of bacteria with a special biological enzyme and traps 99% of dust that passes through it and 99.7% of all pollen, mold spores, animal hair and dander, dust mites, bacteria, smoke particles and dust that pass through it. The Active Carbon Filter removes unpleasant

odors from the air and traps small particles. The Nylon Filter is easy to clean and captures small dust particles.

If you select the Self-Cleaning option, the fan runs for a short period of time after the air conditioner has stopped running in order to prevent the growth of mold and odors in the evaporator. The evaporator is designed with Blue Fin Technology which helps it to operate more efficiently. In case of a malfunction, the Diagnostic Maintenance System identifies the problem and an error code is displayed on the evaporator.

You can have peace of mind knowing that a Gibson air conditioner will help to keep you comfortable.

Note: Appearance of 28,000 BTU evaporator varies slightly

Introducing the new line of Gibson Grand System split air conditioners! The new evaporator has a sleek, smooth contemporary design along with a fashionable remote control. The My Temp function adjusts the room temperature according to where you and the remote control are located in the room and not evaporator. The Turbo Comfort function provides intense cooling to quickly achieve your desired temperature. The Warm Air Release feature, in heat pump models, stops the evaporator from blowing air into the room in the heating mode until warm air can be expelled.

A set of three filters are combined to help improve the air quality in your home. The Bio/HEPA Filter removes 95% of bacteria with a special biological enzyme and traps 99% of dust that passes through it and 99.7% of all pollen, mold spores, animal hair and dander,

dust mites, bacteria, smoke particles and dust that pass through it. The Active Carbon Filter removes unpleasant odors from the air and traps small particles. The Nylon Filter is easy to clean and captures small dust particles.

If you select the Self-Cleaning option, the fan runs for a short period of time after the air conditioner has stopped running in order to prevent the growth of mold and odors in the evaporator. The evaporator and condenser on heat pump/cool models and the evaporator on cool-only models are designed with Blue Fin Technology which helps them to operate more efficiently. In case of a malfunction, the Diagnostic Maintenance System identifies the problem and an error code is displayed on the evaporator.

You can have peace of mind knowing that a Gibson air conditioner will help to keep you comfortable.

Air Coolers

- LCD Wireless Remote Control
- Digital Display
- 8-Hour Timer
- 3 Airflow Speeds
- Automatic Louver Control
- Sleep Function
- Ionizer
- HEPA Filter
- Washable Nylon Filter
- 6 Liter Water Tank Capacity
- Humidifying System
- Water Pump Shut Off
- Water Level Indicator
- Cooling Tank Ice Packs
- Cooling Only or Cool/Heat
- Heater Thermo Sensor Shut Off (Cool/Heat Models)
- White Color with Silver Trim

Keep the air in your room cool while humidifying and removing bacteria at the same time with a new Gibson air cooler.

You can program the 8-hour timer and other functions by using the LCD wireless remote control. The water tank has a capacity of 6 liters and can be cooled by ice packs that are provided.

The air in your room will be healthier to breath after it passes through the ionizer, HEPA

and nylon filters that remove bacteria, dust, germs, pollen and mold spores. The air cooler is also available with a heating element that can warm the air at the same time.

You can have peace of mind knowing that a Gibson air cooler will help to keep you comfortable.

G12AW-MLF125BZKS+-A

Combine the Clean Pro MFW12/MLF12 front load washer with its matching dryer MDE67 to maximize your laundry cleaning capability. Add an optional pedestal with drawer below each for extra storage and convenience.

Save time, energy and money with the Gibson 11kg capacity front load washer. Wash two loads of laundry at once in this super capacity, energy-efficient washer that has earned an 'A+' Euro energy rating.

The washer is designed with features that keep your health in mind. Fresh Plus Rinse Technology uses a fresh water rinse to remove residual detergent from laundry. The Deep-Clean/Sanitary Cycle eliminates 99.9% of harmful bacteria with the help of

a special Booster Heater.

Your laundry is easy to access through the 368mm wide door opening with a door that opens 180 degrees. The 2-Way Reverse Tumble Action provides superior cleaning for brighter whites and colors.

You can have peace of mind knowing that your laundry is being washed thoroughly and safely in a Gibson front load washer!

Dryers

- 7 cu.ft./199L Capacity
- Electronic Controls
- LED Display
- Pro Dry Moisture Sensor
- 99.9% Bacteria-Free Cycle
- 5 Automatic Cycles (Towels, Heavy Duty, Normal, Permanent Press and Delicate)
- 2 Timed Dry Cycles
- 5 Temperature Options (Maximum, High, Medium, Low and Air Fluff)
- 4 Dryness Levels (More Dry, Normal, Less Dry and Damp Dry)
- Extended Tumble Option
- Shrink Guard Option
- Drum Light
- Extra Large Glass Door with Safety Lock
- Stainless Steel Drum
- Quiet Plus Insulation Package
- Extra Large Glass Door
- Optional Pedestal (CFPWD15W)
- Optional Stacking Kit (STACKIT4X)
- Optional Drying Rack (137067300)
- White Color

The optional pedestal can hold laundry supplies while also raising the height of the washer and dryer, making them easier to load.

G12CD-MDE675NZHS+-B

Combine the Clean Pro dryer MDE67 with its matching MFW12/MLF12 front load washer/dryer to maximize your laundry cleaning capability. Add an optional pedestal with drawer below each for extra storage and convenience.

Save time, energy and money with the new Gibson Clean Pro dryer. Wash two loads of laundry at once in the Clean Pro super capacity, energy-efficient washer and then dry that same laundry in the matching dryer.

The MDE67 is designed with features that keep your health in mind. The dryer has a 90-Minute Timed Dry with Maximum Temperature option which assures 99.9% elimination of harmful bacteria from your laundry.

The Pro Dry Moisture Sensor detects the amount of moisture in the laundry and stops

the drying cycle at the appropriate time to prevent damage to your clothing. The LED Display shows the time remaining in the cycle and recalculates the time throughout the cycle based on the moisture remaining in the laundry.

Your laundry is easy to access through the 368mm wide door opening with a door that opens 180 degrees.

You can have peace of mind knowing that your laundry is being dried safely in a Gibson dryer!

G12AW-GLCE09GFCWT+-A

The 9.0kg GLCE09G and 8.0kg GLCE08G are designed with 23 wash programs that will efficiently clean all of your laundry. These models have numerous features that allow you to tailor the wash function to your needs, such as rinse and hold, easy iron, and eco wash, which reduces time and energy used for a slightly soiled load of laundry. For a half load or less of laundry, the Eco-logic System decreases energy consumption by up to 50% by decreasing the water consumption and program duration.

These front load washers are equipped with several safety features to give you extra peace

of mind. The safety lock prevents changes from being made to the control panel settings while the washer is operating. The low and high voltage protection stops the washer from operating if the voltage is above or below the acceptable range. The failure detection system alerts you of a system failure through blinking error signals on the control panel. The overflow protection can detect a potential problem with water supply and automatically turn on the drain pump if necessary.

You can have peace of mind with a Gibson washer!

Front Load Washer

- 7.0 kg Capacity
- 850RPM Maximum Spin Speed
- 14 Wash Programs
- 3 Detergent Compartments
- Rinse and Hold
- No Spin
- Spin Only
- Cold Wash
- Pre-wash
- Delay Start
- Eco Wash
- Cold Water Fill
- Drain Pump with Filter
- Stainless Steel Tub and Carboran Drum
- Electronic Control System
- Balance Control System
- Low and High Voltage Protection
- Failure Detection System
- Safety Lock
- 180 Degree Wide Door Opening
- Radio Frequency Interference Filter
- Removable Plastic Top
- Adjustable Feet
- White Color

The 7.0kg front load washer GLCD07FGMW3 is designed with 14 wash programs that will efficiently wash all of your laundry. This model has numerous features that allow you to tailor the wash function to your needs, such as rinse and hold, no spin, spin only, cold wash, pre-wash and eco wash. Set the washer to start at a later time in the day with the delay start function.

This front load model is equipped with several safety features to give you extra peace of mind.

The safety lock prevents changes from being made to the control panel settings while the washer is operating. The low and high voltage protection stops the washer from operating if the voltage is below or above the 170-240 volt range. The failure detection system alerts you of a system failure through a blinking light displayed on the control panel.

You can have peace of mind with a Gibson washer!

Agitator-Style Top Load Washers

- 14 or 12.1 kg Capacity
- Rotary Electronic Controls
- 7 Wash Programs
- 4 Manual and 1 Auto Wash/Rinse Temperature Combinations
- 4 Manual and 1 Auto Water Level Control
- Auto Wash Action Time Control
- Auto Spin Level Control
- Wash Only, Rinse Only, Spin Only, Wash and Rinse Only, Wash and Spin Only, and Rinse and Spin Only
- Pre-wash
- Eco Rinse
- Hot and Cold Water Fill
- Fabric Softener and Bleach Dispensers
- Safety Lid Lock
- Balanced Control System
- Water Level Sensor
- Self-Cleaning Lint Filter
- Polypropylene Tub with Agitator
- Program Status Lights
- Attached Drain Hose
- Attached Power Cord
- White Color

The new Gibson top load washer models MLTZ14*GAWB and MLTZ12*GAWB will wash your largest laundry loads with a capacity of 14kg or 12.1kg. These models are designed with an agitator and have hot and cold water inlets. You can program the washer yourself using one of the four wash/rinse temperature combinations or one of the four water level options, or you can allow the washer to determine the appropriate selection for you.

The 7 wash programs include heavy duty, cottons/normal, synthetics, delicates, bed sheets, quick wash and extra spin. You can also customize the cycle by choosing one of the six wash, spin or rinse options. Check on the status of the wash cycle through the program status lights or by looking at your laundry through the tempered glass lid.

You can have peace of mind using a Gibson washer to clean your laundry!

- Bleach Dispenser
- Wash Progress Indicators
- Stainless Steel Tub and Polypropylene Drum
- Balance Control System
- Glass Lid with Safety Lock
- Open Lid Alarm
- Fault Check Display
- End-of-Cycle Signal
- Auto Power Off
- White Color

The new GLAZ12DGAWD top load washer is designed with numerous practical and energy saving features for you. The 12 wash programs will efficiently wash a wide variety of laundry and even remove tough stains with one of three pre-wash options. You will save water by using the water level sensor, however, you can change the water level with one of four options if you prefer. Indicators lights show the exact stage of the wash cycle for your laundry load.

The open lid alarm prevents the washer from starting operation and warns you that the lid is open. The safety lock keeps the lid

locked during operation to prevent accidental injury.

The auto power off feature saves energy by turning off the power to the washer, in case of a delay in pressing the Start/Pause button and after completion of the wash program. The fault check display alerts you of abnormal conditions, such as low water pressure, an open lid, an excessive out-of-balance load and failure to drain.

You can have peace of mind with a Gibson washer!

New

Cooker

- 60cm Wide
- Stainless Steel
- 4 Gas Burners
- Heavy Duty Cast Iron Cooktop Grates
- Electric Oven
- Electronic Ignition
- Double Glass Oven Door
- Adjustable Oven Rack
- Oven Light
- Minute Timer
- Cavity Cooling System
- Optional Flame Failure Device
- Towel Bar Oven Door Handle
- Adjustable Legs

The new Gibson GNGQ60CNMSU cooker has a gas hob and a electric oven with a capacity of 56 liters. The hob has four burners, two semi-rapid, one triple ring and one auxiliary, with heavy duty cast iron cooktop grates. The hob surface and the backsplash are both constructed of stainless steel. An optional flame failure device can also be ordered.

The gas oven with broiler has an oven light and an adjustable oven rack. The double glass on the oven door keeps the heat on the interior while protecting you as well.

You can have peace of mind cooking with a Gibson cooker!

- Stainless Steel Interior
- Adjustable Upper Rack
- Third Rack Silverware Basket
- 3 Spray Arms
- Removable Bottom Filtering Grid
- Foldable Plate Holder Grids
- Anti-Flood Device
- Stainless Steel or White Color

Gibson freestanding dishwasher model GDFA14JFC can conveniently wash 14 place settings of your dinnerware with one of seven wash programs. The half load option is perfect for washing six or fewer place settings.

The delay start timer allows you to start the wash cycle within a 24-hour period. You can monitor the time remaining until the cycle ends with the time remaining display. The third rack at the top of the dishwasher can conveniently

wash a variety of cutlery and has its own spray arm for superior cleaning.

This model is available in stainless steel or white and has earned an 'A+' Energy Rating, which will save you money as well as save the environment.

You can have peace of mind knowing that your dishes are being cleaned thoroughly and safely in a Gibson dishwasher!
